INSUREDMINE

Job Designation: Software Engineer – Node.js

Work Location: Bangalore

Experience: 3+ Years

Job Description:

We are looking for a **Node.js Developer** responsible for managing the interchange of data between the server and the clients. Your primary focus will be the development of all server-side logic, definition, and maintenance of the database, and ensuring high performance and responsiveness to requests from the front-end.

You will also be responsible for integrating the front-end elements built by your co-workers into the application and contributing to technical decision-making. Therefore, a solid understanding of front-end technologies is necessary.

Primary Skillset:

Programming:

- Node.js (including advanced Node.js concepts, async/await, Promises, etc.)
- Express framework
- Strong proficiency with JavaScript
- Socket.io
- Experience in third-party API integrations – added advantage
- Angular 2+ – added advantage
- Experience in AWS services (EC2, S3, SQS) – added advantage

Data Store:

- MongoDB or similar relational databases
- Strong knowledge of aggregates, group queries, DB pool, transactions, etc.

- Redis store

Unit Testing Frameworks:

- Mocha, Chai, Jest

Dev Tools:

- Git
- Postman
- Jenkins
- Editors such as VS Code or similar

Nature and Scope of Role:

- Strong understanding of REST API fundamentals
- Create and optimize data models
- Ability to understand and design complex business logic flows
- Strong debugging and troubleshooting skills
- Write clear, high-quality, scalable code and perform thorough code reviews
- Research and resolve production issues efficiently
- Share knowledge and mentor junior team members
- Contribute to high-level architectural specifications, ensuring feasibility, functionality, and integration
- Design, develop, and enhance scalable software solutions

Value Additions:

You have strong communication skills and a solid work ethic. You take ownership of responsibilities and consistently meet timelines. You work well under pressure, demonstrate leadership qualities, and enjoy collaborating across teams. You are proactive, socially adept, and possess strong problem-solving skills.
